About me

I'm a Big Data Engineer with experience working with public cloud platforms and developing software using Java and Python. Certified as Google Cloud Architect, Google Cloud Data Engineer, Cloud Azure Fundamentals, Oracle DBA 11gR2.

Skills

[Goal oriented, excellent technical skill, ability to solve problem quickly, team spirit]

Languages

Education

2006-2013 Bachelor of Computer Science UAM Azc.
Antivirus and Antispam system implemented in a FPGA.

Certifications

2020	Google Cloud Platform Cloud Engineer	GCP.
2020	Azure AI Engineer	Azure.
2020	Azure Data Engineer	Azure.
2020	Azure AZ-900 Fundamentals	Azure.
2020	Google Cloud Platform Cloud Architect	GCP.
2020	Google Cloud Platform Data Engineer	GCP.

Latest Courses

2020	AWS Fundamentals	Linux Academy.
2020	Azure DP-200 Implementing an Azure Data Solution	Linux Academy.

Experience

2019-Current	Big Data Support Engineer. Google Cloud Platform. Providing support to customers using Cloud Platform products, solutions and APIs, including Big Data and related services. Identify and document product bugs and feature requests and work with internal support teams as well as customers to implement effective solutions. I work closely with internal support teams to improve cloud products at a senior level. Working with Big Data technology (Hadoop, MapReduce, HDFS). Writing code using programming languages as Java and Python. Working with NoSQL databases and big data querying tools like Pig, Hive, Impala. Developing solutions by using Big Data tools like Apache Beam (Cloud Dataflow) and Apache Airflow (Cloud Composer). Making technical interviews for new candidates. Doing courses and webinars at global scale to help Epamers to obtain the Google Cloud Data Engineer certification.	EPAM Systems
2018-2019	Oracle Developer ESI(Express Scripts). Working on transformation team, developing PL/SQL code to migrate existing systems to new platforms, in this position, I'm getting lots of experience in Java and tools like Kafka and Attunity. Developing PL/SQL. Developing web services using Java EE. Work with tools like Kafka, Zookeeper, Attunity.	4th Source
2017-2018	Oracle Senior Developer Banco Azteca. Member of the team that developed a project called MER, which identified elements that could cause risk on branches, the purpose was to measure risks to take actions and avoid fines. Developing PL/SQL code to webapps. Designing database model to support MER system.	AsTeci
