### About me

I'm a Big Data Engineer with experience working with public cloud platforms and developing software using Java and Python. Certified as Google Cloud Architect, Google Cloud Data Engineer, Oracle DBA 11gR2. I'm curious and goal-oriented, very good learning and teaching new technologies and collaborating with team members.

### Skills

[Goal oriented, excellent technical skill, ability to solve problem quickly, team spirit]

### Languages

### Education

2006-2013 Bachelor of Computer Science UAM Azc.  
*Antivirus and Antispam system implemented in a FPGA.*

### Certifications

2020 Google Cloud Platform Cloud Architect GCP  
2020 Google Cloud Platform Data Engineer GCP  
2014 ORACLE Administration Workshop IPN ESIME.

### Latest Courses

2020 Azure AZ-900 preparation course Linux Academy.  
2020 Google Cloud Architect preparation course Linux Academy.  
2019 Google Cloud Data Engineer preparation course Linux Academy.  
2019 Big Data Fundamentals Linux Academy.

### Experience

2019-Current Big Data Support Engineer. EPAM Systems  
Google Cloud Platform.  
Providing support to customers using Cloud Platform products, solutions and APIs, including Big Data and related services.  
Identify and document product bugs and feature requests and work with internal support teams as well as customers to implement effective solutions.  
I work closely with internal support teams to improve cloud products at a senior level.  
Working with Big Data technology (Hadoop, MapReduce, HDFS).  
Writing code using programming languages as Java and Python.  
Working with NoSQL databases and big data querying tools like Pig, Hive, Impala.  
Developing solutions by using Big Data tools like Apache Beam (Cloud Dataflow) and Apache Airflow (Cloud Composer).

2018-2019 Oracle Developer 4th Source  
ESI(Express Scripts).  
Working on transformation team, developing PL/SQL code to migrate existing systems to new platforms, in this position, I'm getting lots of experience in Java and tools like Kafka and Attunity.  
Developing PL/SQL.  
Developing web services using Java EE.  
Work with tools like Kafka, Zookeeper, Attunity.

2017-2018 Oracle Senior Developer AsTeci  
Banco Azteca.  
Member of the team that developed a project called MER, which identified elements that could cause risk on branches, the purpose was to measure risks to take actions and avoid fines.  
Developing PL/SQL code to webapps.  
Designing database model to support MER system.  
Code functions, procedures, views, sequences, indexes and data model to interact with Frontend and Backend.
