About me

I'm a Big Data Engineer with experience working with cloud platforms and developing software using Java and Python. I'm curious and goal-oriented, very good learning and teaching new technologies and collaborating with team members. I have a Bachelor's degree in Computer Engineering, an Oracle DBA certification and I'm also certified as Google Cloud Data Engineer.

Skills

[Goal oriented, excellent technical skill, ability to solve problem quickly, team spirit]

Languages

Education

2006-2013 Bachelor of Computer Science UAM Azc.
Antivirus and Antispam system implemented in a FPGA.

Certifications

2020 Google Cloud Platform Data Engineer GCP
2014 ORACLE Administration Workshop IPN ESIME.

Latest Courses

2020 Google Cloud Architect preparation course Linux Academy.
2019 Google Cloud Data Engineer preparation course Linux Academy.
2019 Big Data Fundamentals Linux Academy.
2019 Architecting with Google Cloud Platform Specialization Coursera.

Experience

2019-Current Big Data Support Engineer. EPAM Systems
Google Cloud Platform
Provide support to customers using Cloud Platform products, solutions and APIs, including Big Data and related services.
Identify and document product bugs and feature requests and work with internal support teams as well as customers to implement effective solutions.
I work closely with internal support teams to improve cloud products at a senior level.
Working with Big Data technology (Hadoop, MapReduce, HDFS).
Writing code using programming languages as Java and Python.
Working with NoSQL databases and big data querying tools like Pig, Hive, Impala.
Developing solutions by using Big Data tools like Apache Beam (Cloud Dataflow) and Apache Airflow (Cloud Composer).

2018-2019 Oracle Developer 4th Source
ESI(Express Scripts) Working on transformation team, developing PL/SQL code to migrate existing systems to new platforms, in this position, I'm getting lots of experience in Java and tools like Kafka and Attunity.
Developing PL/SQL.
Developing web services using Java EE.
Work with tools like Kafka, Zookeeper, Attunity.

2017-2018 Oracle Senior Developer AsTeci
Banco Azteca, member of the team that developed a project called MER, which identified elements that could cause risk on branches, the purpose was to measure risks to take actions and avoid fines.
Developing PL/SQL code to webapps.
Designing database model to support MER system.
Code functions, procedures, views, sequences, indexes and data model to interact with Frontend and Backend.
